EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech	Malla Reddy College of Engineering, Hyderabad	6.31	2020-2024
Intermediate	Vidya Vikas Jr College, Bodhan	45.8	2018-2020
SSC	Zilla Parishad High School, Perkit	6.5	2018

PROJECTS

- Underground Cable Fault Identificantion Over IOT Plotform** Mar. 2024 - Jun. 2024
Arduino UNO Project
 - Detecting faults in underground electrical cables: This system is designed to identify and pinpoint issues such as broken cables or short circuits in cables buried beneath the ground.
 - Utilizing an Arduino microcontroller: The core of the system is an Arduino board, which processes data and controls the detection mechanisms, making it an embedded systems application.
- Robust Digital Watermarking For VIDEO Using SVD and DWT Techniques** Apr. 2023 - May. 2023
Matlab Project
 - Digital Signal Processing: It involves the manipulation of digital video signals using advanced mathematical transforms like Singular Value Decomposition (SVD) and Discrete Wavelet Transform (DWT). These techniques are applied to embed and extract hidden information (the watermark) within the video data.
 - Information Security and Copyright Protection: The core purpose of digital watermarking, as described in the project, is to embed imperceptible data into multimedia content such as video to protect against illegal copying, identify manipulations and prove ownership.
- Personal Portfolio** June. 2025
Web Development
 - Designed and developed a fully responsive personal portfolio website using HTML,CSS,JavaScript,and VS Code.Followed best practices in responsive design to ensure compatibility across devices and browsers.
 - Made using: HTML, CSS, JavaScript & SQL.

TECHNICAL SKILLS

- **Programming** : Python Programming
- **Development** : Html & Css
- **Software Tools** : VS Code
- **Database** : SQL

SOFT SKILLS

- Communication
- Teamwork
- Problem - Solving
- Time Management
- Leadership

POSITIONS OF RESPONSIBILITIES

- Project's Team Lead** Apr. 2023 - Jun. 2024
MRCE-Hyderabad
