

Umesh Chandra Battu

+91-7997104730 | battuumeshchandra@gmail.com | Hyderabad 500045

SUMMARY

Dynamic Project Team Lead at Malla Reddy College of Engineering, adept in Python programming and team leadership. Successfully guided diverse projects, fostering collaboration and effective communication among team members. Passionate about driving results and enhancing project outcomes through innovative solutions and meticulous time management.

SKILLS

- Python Programming
- Team leadership
- Time management
- Effective communication
- Team collaboration
- Html & Css
- VS Code

EXPERIENCE

Project's Team Lead, Malla Reddy College of Engineering, April 2023–June 2024

Hyderabad, India

- Led a team for various projects at Malla Reddy College of Engineering.
- www.linkedin.com/in/battuumeshchandra

EDUCATION AND TRAINING

B.Tech

Electronics and Communication Engineering, Malla Reddy College of Engineering, Hyderabad February 2024

GPA: 6.31

Intermediate

Vidya Vikas Jr College, Bodhan March 2020

GPA: 45.8

SSC

Zilla Parishad High School, Perkit March 2018

GPA: 6.5

PROJECTS

- **Underground Cable Fault Identification Over IoT Platform, 03/01/24–06/30/24**, Designed to identify and pinpoint issues such as broken cables or short circuits in cables buried beneath the ground. Utilising an Arduino microcontroller: The core of the system is an Arduino board, which processes data and controls the detection mechanisms, making it an embedded systems application.
- **Robust Digital Watermarking For VIDEO Using SVD and DWT Techniques, 04/01/23–05/31/23**, Digital Signal Processing: It involves the manipulation of digital video signals using advanced mathematical transforms like SVD and DWT. These techniques are applied to embed and extract hidden information (the watermark) within the video data. Information Security and Copyright Protection: The core purpose of digital watermarking is to embed imperceptible data into multimedia content to protect against illegal copying, identify manipulations and prove ownership.
- **Personal Portfolio, 06/01/25**, Designed and developed a fully responsive personal portfolio website using HTML, CSS, JavaScript, and VS Code. Followed best practices in responsive design to ensure compatibility across devices and browsers. Made using: HTML, CSS, JavaScript & SQL.

POSITIONS OF RESPONSIBILITY

Project's Team Lead, 04/01/23–06/30/24, Hyderabad
